COLOURED DIAMONDS – NEW ASSET CLASS

USE COLOURED DIAMONDS TO MAKE A GOOD INVESTMENT – AND PROTECT YOUR PRIVACY – Part 3

The Mechanics of a Typical Transaction:

- Upon locating and securing a diamond(s) that fulfils your parameters a verbal commitment is made.
- Acquisition is agreed between the client and WWS and an account is opened.
- Confirmation of purchase (sale) is faxed or e-mailed detailing diamond colour, weight, price and date of purchase and settlement for client approval.
- Client remits funds to Adventurem Financiae Ltd. via wire transfer, banker's draft, cheque or other preferred means as designated by the client.
- Receipt of funds is acknowledged in writing and either goods are shipped on instruction or stored/insured at client's direction.
- Original laboratory certificate(s) and confirmation (diamond description, insured value, and registered owner), are sent to client.
- WWS will levy a transaction fee not to exceed __% of the difference between the original purchase price and the selling price (profits) realised from the transaction.
- Funds are transferred accordingly and transaction is complete from acquisition to disposition.

If you should have any questions or would like further elaboration of this process please feel free to email us.
